***Response to Preliminary Amendment***

1. This office action is in response to Preliminary Amendment filed on April 14, 2004.
2. Claims **1 – 19** have been cancelled.
3. Claims **21 – 38** have been added.
4. Claims **20 – 38** are presented for examination.

***Specification***

5. The amendment filed January 30, 2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: “a center chord that lies along a longitudinal centerline of the source strip”; “a plurality of spaced-apart first points and a plurality of spaced-apart second points”; “a plurality of spaced-apart third points and a plurality of spaced-apart fourth points

Applicant is required to cancel the new matter in the reply to this Office Action.

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims **20, 22 – 38** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In **claim 20**, in lines 2 – 3, what does it mean by "... , a first strip having a width that varies with length from a first width to a second larger width to the first width" ?

Likewise, in lines 4 – 6, what does it mean by "... a second strip having a width that varies with length from a third width to a fourth smaller width to the third width, ..."?

In **claim 22**, "a center chord", "longitudinal centerline", and "a plurality of spaced-apart ..." are considered vague and indefinite as these limitations have not been properly defined in the specification.

Clarifications/corrections are required in order to overcome this type of rejection.
